## Healthcare in the Digital Era

Designing a Smart, Affordable Accessible, and Secure  
Web Platform for Medical Services ★★★★

# INNOVATION IN HEALTHCARE

## For development of digital India

Arogya Sathi is a visionary project aimed at building India's largest integrated healthcare mobile application. Our goal is to connect over a billion Indians, providing them with a seamless and comprehensive healthcare experience. By combining cutting-edge technology with a user-centric approach, we aim to revolutionize healthcare delivery, making it more accessible, efficient, and affordable.

# Mission

To connect over a billion Indians, providing them with seamless access to quality healthcare services, including emergency care, telemedicine, fitness tracking, medication reminders, and patient management.

# Vision

To revolutionize healthcare delivery in India by creating a user-centric, technology-driven platform that empowers individuals to take charge of their health and well-being.

# Statistics :

50% 

Medication Adherence

Less than 30% of the general public completes health surveys when no incentives are provided, with participation dropping below 15% in rural areas.  
(Journal of Public Health Research, 2023)

Only 50% of patients with chronic diseases adhere to long-term medication regimens in low- and middle-income countries. (World Health Organization)

30% 

Medical Survey Participation

**Reduces Hospital Visits**  
Minimize unnecessary in-person visits.

## ELECTRONIC HEALTH RECORDS

- View medical history
- Share records securely
- Download lab results
- Access for authorized doctors

A modern EHR system that offers unified patient records, real-time access, e-prescriptions, and secure data sharing. It enhances clinical efficiency with decision support, patient portals, and customizable workflows.

## Arogya - Wheel

## INSTANT EMERGENCY AMBULANCE

One-click  
emergency call

Ambulance  
service link

Live chat  
with staff

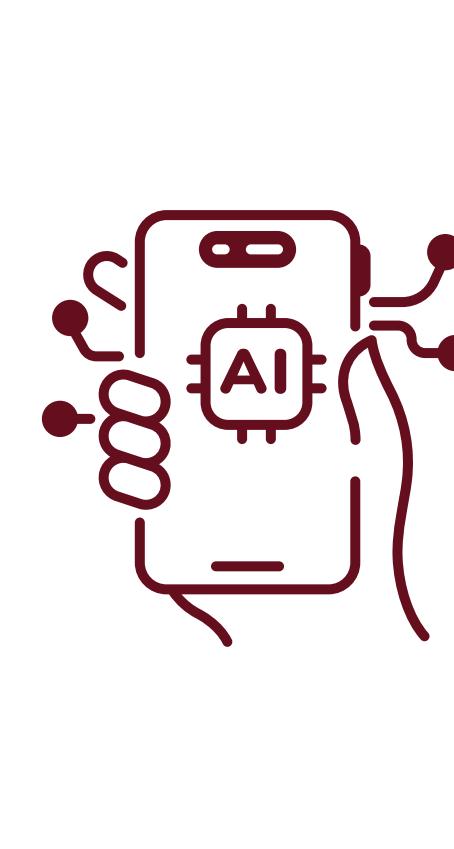

Hyderabad sees over **1,000 medical emergencies daily**, yet average ambulance response times often exceed 25 minutes due to traffic and coordination gaps. Our app reduces delays with AI-based dispatch, live GPS tracking, and real-time hospital alerts, ensuring faster, reliable emergency care when every second counts.

**Swift. Smart. Life-saving. Instantly connect to the nearest ambulance with real-time updates and hospital-ready alerts.**

# AROGYA - AI

- **24/7 AI Health Assistant**
- **Smart Symptom Checker**
- **Prescription & Medicine Scanner**
- **Real-Time Doctor Chat & Connect**
- **Multilingual Voice & Chat Support**
- **Digital Health Record Access**
- **Mental Health Check-in**

An AI chatbot in the healthcare app offers 24/7 support, automates appointments, and provides smart symptom triage. It can scan prescriptions, explain medicines, suggest home remedies, and answer health queries. With quick record access, multilingual support, and cost-effective scaling, it makes healthcare smarter and more accessible across regions like Telangana.

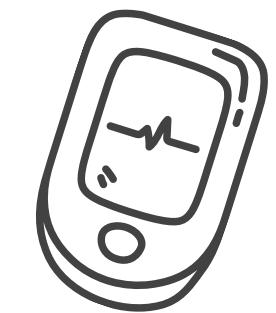

## HOME - CARE SERVICES

Arogya Sathi Platform  
Offer doorstep healthcare through nurse visits, lab sample collection, and medicine delivery. Enable home-based doctor consultations, physiotherapy, and post-surgery care with real-time tracking and scheduling. This reduces hospital load, supports elderly and chronic patients, and brings quality care directly to homes—boosting accessibility, trust, and retention on the platform.

Arogya Sathi is a smart healthcare platform designed to tackle long wait times, overcrowding, and limited emergency access. It bridges the gap between patients and providers, especially during health crises like pandemics. With your leadership in advancing Telangana's healthcare, Arogya Sathi can align with state initiatives to build a more inclusive, efficient, and accessible system for all.
